## A NEW EXPERIENCE OF DENTISTRY

f you're like most people, you've been going to the dentist twice a year for as long as you can remember, but the trip is never memorable. With PGH Smile Boutique (the correct way to say the name is P-G-H Smile Boutique), you'll not only remember every visit, but look forward to them as well.

That's because Dr. Andy Shieh has done something with dentistry that hasn't been done enough – design a practice where patients' comfort and experience come first. The result is that your trip to the dentist will be more like going to a luxury designer boutique where you just happen to get your smile enhanced in the process.

"I worked in a large traditional group practice for over 10 years and it's time that I create something of my own," said Dr. Shieh. "I wanted to provide and offer what no other local dental office has—a boutique and luxury experience for dentistry. Coming here is like going to a Las Vegas designer store. It just feels luxurious... upon entry, as you look down, you'll be captivated by the marble-like floor artistically designed with metallic epoxy, and our contemporary track light 'clouds' hovering in the exposed ceiling. Our large video wall and crystal halo chandelier in the reception area will continue to make you wonder if you've stepped into a dental office. We've set out to create a luxurious feel that you simply don't get in a traditional dentist's office."

In addition to the unique reception area, the exam rooms continue the "boutiquey" luxurious vibe. Each one has a 55-

what they had in the past with their old dental offices. From the second they walk in, to the moment they leave, patients will sense a luxurious, friendly and high-end environment where they can relax and not have any anxieties during their visit," Dr. Shieh said. "We're offering something different, a positive vibe, and people will notice that right away."

PGH Smile Boutique has spared no expense in the clinical department as well. Dr. Shieh has assembled a talented group of professionals to help him deliver his vision, and as far as practice procedures go, it has some of the most cutting-edge dental technology available to serve patients better and faster.

The practice offers same-day zirconia crowns without the need for plastic temporary caps or making another appointment for permanent crown placement. It also offers minimally invasive facial cosmetic procedures to focus on helping patients maintain a youthful look. From Botox to lip augmentation, PGH Smile Boutique will not only give you the best smile around, but have you feeling great about your entire look.

With a grand opening planned for May 2018, PGH Smile Boutique will be the destination for a new experience of dentistry in the Wexford/Warrendale/Cranberry area. It is located at 904 Warrendale Village Drive in Warrendale, 15086.

To find out about all of the services provided, go to the website at pghsmileboutique.com or check out the Instagram account at @pghsmileboutique. There is a variety of payment

options and it is an "out-of-network" provider for all insurances.

To schedule an appointment or for specific questions you may have, call directly at 724.799.8100. You can also email at smilenow@pghsmileboutique.com.

PGH Smile Boutique is open weekdays with convenient evening hours.

continue the "boutiquey" luxurious vi inch TV for patient education and entertainment purposes, but patients can also select their own music from their iPhones to play in the background during the visit. And, perhaps the most radical difference is one that patients will notice right away: heated massaging dental chairs to relax in during

"We want to give our patients a different positive experience from

treatment.
